VIO Health
Personalized Care

About Us

VIO Health is a digital remote patient monitoring and disease management suite includes VIO Health monitors (multiple modalities), VIO Health Hub (Analytics and AI platform), Care Coordination Center (Care flow, referrals and navigation)

The History

Founded back in 2009, we started from a healthcare management consultancy that advises healthcare providers for better performance and improving quality .

With our IoT technology, we enable providers to improve communities' quality of life and give the best care to their customers based on their health needs and condition.

**Keep an eye on
your patients for a
better prognosis**

UnwaveringCare by VIO health

Vision

A leading remote care solution provider in The Middle East

Mission

To give the best customized remote monitoring solution tailored to our partners' needs.

01.

Enhancing telemedicine practices through enabling remote examination
